Language Test: Designed to ascertain a person's knowledge of a particular language, or a subset of that language. For example, if a job required fluent French-speaking skills then a French language test may be administered; however, in an English-speaking business environment a business English test may be required.

Psychometric Test Types - Career Gym

Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

Psychological testing - Wikipedia

What Is a Psychometric Test? A psychometric test is any activity and assessment that is conducted in order to evaluate candidate performance and includes, but is not limited to, skills and knowledge, abilities, personality traits, attitudes and job/academic potential.

What Is Psychometric Testing? The Beginner's Guide

Exam mode. In exam mode, you can practice full abstract reasoning, numerical reasoning and verbal reasoning tests (as well as accuracy tests) under time pressure. The time limits are configured based on real SHL/Kenexa psychometric tests. Don't worry, you'll have plenty of time to review your answers and understand the solutions after the test.
