Instinct or innate behavior is the inherent inclination of a living organism towards a particular complex behavior. The simplest example of an instinctive behavior is a fixed action pattern (FAP), in which a very short to medium length sequence of actions, without variation, are carried out in response to a clearly defined stimulus.

Human sexuality is the way people experience and express themselves sexually. This involves biological, erotic, physical, emotional, social, or spiritual feelings and behaviors. Because it is a broad term, which has varied over time, it lacks a precise definition. The biological and physical aspects of sexuality largely concern the human reproductive functions, including the human sexual ...

The truth is the human condition is the agonising, underlying, core, real question in all of human life, of are humans good or are we possibly the terrible mistake that all the evidence seems to unequivocally indicate we might be? While itâ€™s undeniable that humans are capable of great love, we also have an unspeakable history of brutality, rape, torture, murder and war.
