1.3.10 Exterior Vertical Surfaces. When adhesive installation methods are used for exterior vertical surfaces, the stone shall be back buttered to achieve, as close as practical, 100% adhesive contact between the stone and the backup. Remove freshly installed tiles periodically during installation to verify adhesion level.

workers when performing marble and granite processing activities. The survey is qualitative and was based on the reality of a small industrial company that deals with processing activities.

Polishing Knowledge: A Study of Marble and Granite Processing

who choose cultured marble for their homes and businesses. However, the most unique characteristic and ultimate reason for the success of cultured marble is found in the inherent design flexibility of the product. The cultured marble process was first developed in the early 1960s by a tile distributor in Southern California.
